

Vacation days

My cleaning service fee is based on 4 visits each month, or 48 visits a year, not 52 weeks. I set aside those unpaid days in the year for some time off. I take my time off between October and December.

Vacation:

I take a week off after the summer ends in late October.

Holiday's:

I take the week of Thanksgiving off and the week of Christmas off. I can't finish everyone's pools during the holiday weeks and my suppliers are also closed on the days of these recognized holidays.

If I must I take a day off besides my outlined vacation time, or the above mentioned holidays, I will make up the missed days on an unscheduled day, often 24-36 hours after the scheduled day, or on a weekend day to stay caught up with my responsibilities.

Sincerely,

Jason the Pool Guy
